FELL IN-BROTHER STARKE IN

TROUBLE .- Last night about 90'clock,

as Brother Starke, of the "Fraternity Electrique," was dozing in his office in the Williamson, Upchurch & Thomas building, he was aroused by the crash of falling bricks and mortar near at hand. On examination, it was found that a part of the oil press ed brick composing the front of the establishment had given way and fallen A short time after this the sult. writer stopped to enquire if a telegram had arrived from a friend, when friend S. frantically pointed to a small erack in the plastering overhead, and ex-claimed, "I shall see if I can't move from this place; things are getting too shoky for me." We again inquired for our message, but instead of an answer, we heard murmurings suggestive of a family of wee-bits at home, who would suffer should the house come in.

The damage to the house is only slight-the bricks only being the oil pressed brick, forming the outside shell of the front wall. DECISION OF JUDGE WATES ON

THE QUESTION OF ISSUING GRANTS FOR PUBLIC LANDS.—The case of Mr. G. T. Mockridge, of Philadelphia, praying to enter 175,000 acres of public land in Mitchell and McDowel! counties, was heard before Judge Watts at Chambers Friday night. The Secretary of State had refused to issue grants for the same upon the ground that Mr. Mockridge was not at the time a resident of the State, and hence the case was considered one of much importance. It was arone of much importance. It was argued by Messrs. Smith & Strong and the Attorney-General for the State and Messrs. Battle & Son and W. H. Bailey for Mr. Mockridge. Judge Watts decided in favor of Mr. Mockridge. ridge, on the ground that Mr. Mock-ridge had signified his purpose to be-come a citizen, and had since actually become a resident of the State.

MYSTERIOUS DISAPPEARANCE.-Granbery Winston, a prominent and very highly respectable citizen of Youngsyille, on the Raleigh & Gaston Railroad, came to this city on Monday last and registered at the Carolina House. Tuesday he spent the day in the city attending to several matters of business, and on Tuesday evening paid his bill at the hotel, stating his intention of taking ing the first train home. Leaving ing the first train home. Leaving the hotel he was next seen at the store of Mr. Z. W. Gill late in the afteroon. After leaving this store he has not been seen or heard of since. His relations were in the city yesterday making all necessary inquiries concerning him, but no clue to his whereabouts could be obtained. Mr. Winston is a gentleman about 35 years of age, steady and sober in his habits, and in good circumstances, never known to be even drinky, and his strange disappearance is not only mysterious but truiy alarming to his relatives and friends. He deposited at one of our banks on Tuesday \$300 and had on his person at the time of his disappearance about the same amount in currency. It is reasona-bly supposed that some foul play has been perpetrated, and it would be well for the authorities to look into the matter.

THE PUBLIC SCHOOL FUND.-The Treasurer of the State Board of Education will distribute on Monday next the sum of \$14,000, the full amount in his hands pro rata to the counties for the benefit of the public schools. This seems to be a small amount, but when it will be remembered that the poll tax, by a recent act of the General Assembly, is now paid to county treasurers, the funds com-ing into the hands of the Public Treasurer is necessarily small, there being only one or two sources from which this tax is derived. The fines, penalties and forfeitures, which the clerks are required to send in to the State Treasurer is, by an act of the Assembly, constituted a permanent school fund, and only the interest accruing therefrom is to he distributed. The above amount includes the accrued interest to date on the permanent fund as well as the direct tax,

THE RESULT OF GOOD GOVERN-MENT.—The petit and grand jury of the Superior Court, which closed its session yesterday, were promptly paid off in currency. something paid off in currency; something hitherto unknown in the history of Wake county since the beginning of Ra lical rule in 1865. Sheriff Dunn and Collector Haywood, representatives of the Democratic representa-tion, deserve no especial thanks at the hands of the people for this change, because believing them honest, capable and competent, we placed them in position for the especial purpose of bringing about this desired result. We are pleased, however, to be able to chronicle the re-

ENCOURAGING .- Mr. C. H. Scott opened his school for boys in this city January 15th, 1874, with 6 schollars and closed his first session at the end of twenty weeks with 18. His second session opened September of the same year with 22 scholars and closed with 36. His third and present session opened with 45 scholars, with several others not yet reported. Merit will tell, as this highly encourg-ing exhibit shows. Mr. Scott has erected a new Academy and has also secured the services of a competent assistant. The Scott School is destined to become one of our most popular and flourishing institutions.

MOVEMENTS OF COTTON IN RAL-FIGH.—Receipts for week ending January 16th, 699 bales; market closing firm and active at 14 a14 cents for best grades. Same week last year receipts were 1000 bales; market closing at 14½ cents. Falling off in receipts for week as compared with same week last year 301 bales. Whole receipts from September 1st to Janvary 18th 20 875 bales; game time uary 16th, 20,675 bales; same time last year, 13,571 bales. Increase in receipts this year, 7,104 bales. If receipts continue to fall off those holding may expect a farther advance in

Unintentional Injustice.—The acting Coroner of the county, Deputy Sheriff, Dunn, did go 'o Watson's field on Friday and exhumed the bones of the dead babe buried therein, and have the same in his office. He saw no reason why an inquest should be held, as from all appearances the child had been several months dead, and there was not the slightest possible chance of gaining any information on the subject. We made our statement that the Coroner did not go to the spot, from information given us by persons living in the saw no reason why an inquest should be held, as from all appearances the child had been several months dead. and there was not the slightest pos-sible chance of gaining any infor-mation on the subject. We made our statement that the Coroner did not go to the spot, from information given us by persons living in the immediate neighborhood. We are pleased to be able to make the cor-rection, and at the same time commend the promptness af the officer in the discharge of his duty.

TUCKER HALL.—The second exhibition of the "Mirror of Ireland" and the "Franco-Prussian War" drew a good audience at Tucker Hall last night and gave general satisfaction. The comedy troupe, led by Mr. Taylor, is really superb, and taking the combined entertainments there is no better show traveling in the South. They will perform at Goldsboro Monday and Tuesday nights, and we can confidently recommend the exhibition to our Goldsboro friends as a first class, chaste and elegant entertainment.

JOURNALISTIC .- The Friend of Temperance comes to us this week with a bran new head and partially with a bran new head and partially in a new dress. It presents a very neat appearance, being considerably improved by the change, and is now one of the best and most attractive temperance papers published in the South. We are pleased to witness this evidence of prosperfty on the part of Bro. Whitaker and extend to him our best wishes for continued to him our best wishes for continued

ARMY ITEMS.-Lieutenant Derus sey, of Capt. Russell, has resigned his position as Lieutenant in the U.

S. Army.

Lieutenant Mast, for the past
twelve months on duty at Camp
Russell, has been transferred to Fort McHenry.
Lieutenant Gifford, of Fort Macon, has been assigned to duty at Camp Russell to fill the vacancy occasioned by the transfer of Lieutenant Mast.

SEE TO IT .- The Grand Jury has found 2,200 indictments in the county against parties for failing to enlist their poll taxes, 1,400 of these indictments are confined to Raleigh township. It is stated upon authori-ty that all parties paying their taxes to J. P. Haywood, tax collector, before the expiration of his time for settling with the County Treasurer, will have their indictments withdrawn by the Solicitor.

QUARTERLY MEETING.—The first quarterly meeting for the Raleigh Circuit will be held to-day at the Person street Methodist Church, Rev. Junius P. Moore Presiding Elder, officiating. Mr. Moore will oc-cupy the pulpit at the regular morn-ing hour. Services will also be held at the usual candle light hour.

The Public Debt Question of Vir-

The Virginia Legislature is endeavoring to devise some means of adjusting her public debt, and is in much trouble thereat. Says the Richmond Dispatch of Friday: "Fifty or sixty members of the General Assembly, Conservatives and Radicals, had a conference in the hall of the House of Delegates last night to consider the public ques-tion. The Supreme Court of appeals having declared the funding bill constitutial, and all attempts to effect a compromise with creditors having failed, in the opinion of these gentlemen a necessity has arisen which calls for some action to be taken to force a compromise with creditors.

Major J. H. Lacy, member of the
House of Delegates from Spotsylvania, presided at the first conference, held about ten days ago at the St James Hotel, and at that of last night A reporter of the press having ap-plied for admittance to the hall, the question was submitted to the meetquestion was submitted to the meeting, and a lively discussion ensued. Messrs. Armstrong, of Rockbridge, and Holbrook, of Wythe, and others, were willing to lift the veil of secrecy, but Messrs. Foster, of Norfolk, Fulkerson, of Washington county, and Lacy, of New Kent, and others, were not, and the latter's views prevailed. Not only were the members of the press excluded, but each person pre-sent undertook to keep within his own breast the utterances of his associates and of himself. There were a number of gloomy speeches on the finan-cial situation of the State. The funding bill was derided and denounced as it has been a thousand times before. It was agreed unanimously that the rate of taxation, which is fifty cents on the \$100, is as high as the people can bear. With like unanimity it was resolved that it will be impossible to pay even four per cent. interest per annum on the public debt with the revenue which this rate brings into the Treasury, and the coupons being received for taxes. Then the query arose, "What shall we do to be saved?" Nobody was able to present a satisfactory answer. But a committee, consisting in part of Messrs. Fulkerson, Quesenberry, of Caroline, and McGonigal, of Surry, was ap ointed to prepare a plan to meet the emergency. Judge Lacy, of New Kent, was named as one of the members of the committee, but Senator Pridemore suggested that as this was not a party movement it would be well to have a Republican on the committee. Thereupon by general consent, Mr. McGonigal, of Surry, was substituted for Judge Lacy, and the conference, or caucus, adjourned to meet again at the same place on Monday evening next at 8

A woman writes to the Boston Globe: "One day on the trip up, when reading a magazine, my attention was attracted by the glitter of a gold bracelet, which, look where I would, flashed before my eyes, and further scrutiny revealed the fact that the young lady who wore it was particularly anxious that I should be atted by it, and to further her design, began cutting the leaves of her magazine with a silver fruit knife. For the purpose of showing her that I was not particularly dazzled, in fact that there was another such in the world I took a gold pencil from the world, I took a gold pencil from my pocket and marked a passage in my book, for my bracelet was equal to hers. Observing that fact, she drew off her left glove, carefully arranged her veil, that I might not fail

drew an elegant little watch from her belt, which sne studied attentively, two whole minutes, holding it up in full view, then turned to me as if to say, 'Well, go on.' I had done my best, and could not answer the challenge, but thought mournfully of my poor little locket in a drawer, at home, with one side all jammed in. When, at last, the aggravating creature took a lovely coral set, turning it this way and that to exhibit all its beauties, futively glancing at me to be sure that I observed, I was utterly vanquished, completely routed, and so greatly absorbed in my book that I did not see a thing."

INFORMATION

Farmers of North Carolina.

GENTLEMEN—Two years ago, at the request of a number of the leading planters of your state, I endeavored to form what was then known as the North Carolina Fertilizer Company. The main object (on your part) in engaging in the enterprise was the reduction of the then prevailing high prices for fertilizers by forming a Farmers' Manufacturing Company, and said Company being owned and controlled by you, thereby be enabled to obtain a certain amount of the preduction at cost price. After spending some three months in thoroughly canvassing those sections of the State in which fertilizers were largely used, a subscription to the stock was obtained, of which we have no cause to be ashamed. Unfortunately, when we mot for organization, the faise reports, de., of those who were interested in preventing its formation prevailed, and the enterprise was abandoned. I was afterwards frequently solicited to start once more, and many offers and pledges made, but I have refused, being fully convinced of failure. Although I have refused to attempt the re-formation of said company, yet I have single-handed carried on the fight we jointly began for lew prices, being fully convinced that the true policy of the dealer is large sales and reasonable profits.

In introducing Guanahani Guano last year, consistancy to this policy was shown, although the chemical endorsement from the highest authority in the land entitled the Company to charge-a much higher price than the \$40 per ton at which it was placed on the market.

the market.

It was expected that this fight for low prices would raise great opposition from parties interested in preventing the same, but hardly that it would be carried on with such a bitter spirit as witnessed during the past year. I desire no better vindication than the certificates contained in the circular of that Company, showing as they do more general satisfaction to the planting public than any fertilizer that has ever come under my characteristics.

satisfaction to the planting public than any fertilizer that has ever come under my observation.

That a high standard of knowledge in regard to agricultural chemistry does not exist among the farming public, there is no doubt; in fact, all admit it; but while regretting the same, hope for better days to come.

The above being true, we must expect to find opposition to new ideas, until the time when practical demonstration of the plantation shall drive out the existing prejudice for cid things.

Such a prejudice existed last year in regard to Guanahani Guano. Many did not even grant it a small trial or test, from the fact that it did not emit the odor by which they have been in the habit of judging of the good qualities of a fertilizer. But few are aware that forms of nitrogen or ammonis, other than a volatile condition, exist, and that two or three of said other forms are, for many reasons, more valuable for agricultural purposes than even the saits of ammonia in Peruvian Guano.

Again: but few are aware that phosphoric acid or phosphate of lime exist in a natural guano in different forms from those contained in manufactured fertilizers. The farming public have been left entirely in the dark as regards neutral phosphoric acid, and have been left entirely in the dark as regards neutral phosphoric acid, pronouszed by all chemists, and estimated in all tables of agricultural value of such ingredien a, to be worth the same as the soluble phosphoric acid of the manufactured article.

Such prejudices as these operated more against the introduction of Guanahani Guanothan all others.

In order to cradicate these false ideas or prejudices, I appeal to that almost infallible verdiet that comes from the plantation test, and refer you to the certificates are from different sections of the States of North Carolina, Virginia and Maryland, where Guanahani was used during the past year.

In North Carolina they will be ionned, on examination, to extend from Gatesville in the East to Charlotte in the West and from the first agr sections
The judgment in these cases has not been made on account of a fine growth of weed or stalk, but from final results—as shown by the an ount of grain or seed cotton—and I know of no better mode of judging than "By their faults ye shall know them."
With respect, yours truly,
WM. R. GRIFFITH.

WM. R. GRIFFITH.

A NEW ENTERPRISE.

Having resigned as General Agent of the Guanahani Guano Company after my re-election, I desire to call your attention to the new enterprise in which I am engaged as General Agent, and to inform you that I intend to still carry on the fight for low prices. Messrs. Thos. Branch & Co., of Richmond, Virginia, having secured a large deposit not covered by the grant to the other company operating the same islands, I now offer you at a medical price the same guano from the same islands as that I introduced to you last year under another name.

The guano now offered you will be known as CAT ISLAND GUANO, and will be de livered as it is imported (without manipulation), being a genuine guano.

With respect, yours truly, WM. R. GRIFFITH,
General Agent for Cat Island Guano,
Virginia.

POSTERS, CHECKS, DRAFTS, &c. THE recent re-election of that pestilent negro Pinchback to the Senate, or rather the re-affirming of his former spurious election, will compel the U.S. Senate to say whether or not it will recognize the Kellogg government.

MAJOR DUNHAM, the Editor of these columns, is still confined to his bed from severe indisposition, and as a consequence has not been enabled for the last few days to contribute any editorial matter. We are pleased, however, to state that he has been relieved by an operation upon his wounded limb, and we hope to have him at work again in a few days.

THE New York World says of Grant's recent message that it is a "quilted patch work," and concludes an able review as follows:

"Instead of an admonition or a denunciation of Generals Sheridan and De Trobriand for submitting the army to the partisan purpose of Kellogg a week ago last Monday, the crime is excused upon the plea "that the army is not composed of lawyers capable of judging at a moment's notice just how far they can go in the maintenance of law and order." The last and extreme punishment for Presidential lawlessness was never so richly deserved."

THE New York papers have full accounts of the Beecher-Tilton trial which has been progressing in New York this week, but as the Associated Press has refrained from sending any of the particulars of the trial "on account of its indecency," we think the press of the South can well afford to allow the trial to progress without giving any notice. We are pleased to see this evidence of morality on the part of the Press Association at Washington, and we hope it may continue in this line.

Senator Logan must have been 'keeping company with Sheridan." In a debate in the Senate on Thursday he said that the stench of murder and outrage of the helpless victims in the South cried to Heaven; and the day would come when a terrible vengeance would overtake these murderers and the men who encourage them. How long, oh how long, will such men continue to villify and misrepresent a people who only desire to be allowed to become good and loyal citizens of the National Government?

THE New York Herald says the late message of the President is quite a different document from the one originally prepared, which would have led to the immediate resignation of the few members of the Cabinet to whom the country concedes the title of statesmen. Says the Herald: "The President could not afford a Cabinet explosion in such a crisis as the present, and least of all could be have afforded the indignant retirement of the particular members who have the strongest hold on public confidence-Messrs. Fish and Bristow.'

We hope to see a full representation of the Democratic Executive Committee of the State, the members of the press and other leading men of North Carolina present on Wednesday next at the meeting which has been called by the Chairman of the Committee, Gen. Wm. R. Cox. The principal object of this meeting, it is understood, is to draw forth a full expression on the question of calling a Convention, and we hope to see every portion of the State represented. This questiun has now become one of paramount importance in the State, and must be met by the Legislature upon its reassembling.

SHOULD not President Grant be held accountable to the law for the withdrawal of the government patronage from those Republican journals which had the manliness to condemn the unwarranted Federal usurpation of power in Louisiana? He can condemn and punish a whole people because a few persons threaten to discharge their laborers for voting against the wishes of the employers, but he is to be allowed, as the head of a great government, to discharge his own party papers because they do not endorse his every action. Is not this attempted intimidation, and is not this pun-ishable by the laws of the land?

THE Legislature will reassemble n this city to-morrow, after a holiday of one month. We hope the members will come back invigorated and better prepared to grapple with the important measures they will have to consider. Being fresh from their constituents, they know the wants of the people and can act

with promptness and firmness. The two principal questions to be considered and disposed of will be the adjustment of the Public Debt and the calling a Convention. We hope to see these questions considered and acted upon promptly. If a Convention is to be called, let it be done at once; and if it is not to be called, then the sooner that fact be known the better, in order that all discussion upon the subject may be stopped.

THE Legislative Public Debt Committee has been in session in this city for three days, in conference with the creditors of the State. We understand the latter has been represented quite largely, either in person, by proxy or by letters, and that quite a free discussion has been had as to the disposition of the creditors to compromise their claims and the ability of the State to pay her indebtedness, but as the deliberations of this Conference have been private, we are not at liberty to state what transpired. The Committee will make their report to the Legislature next week. We are at liberty, however, to state that the Committee has been much pleased with the disposition shown by the creditors to meet the wishes of the Legislature to adjust the debt of the State, and we hope much good

THE Christian at Work, published at New York, one of the ablest religious papers in the country and edited by T. DeWitt Talmage, a journal that is not often found interfering with any political question, strongly deplores the late action of the Federal government in regard to Louisiana, and thus

may result from the conference.

concludes an able article: "We cannot but express our regret that the President has taken this illadvised action; assuredly it will react upon him and upon all concerned. Yet in the midst of whatever regret we may feel, we are gratified to note the promptness with which public opinion has manifested throughout the country in stern rebuke of the President's action. In our own city the great mass-meeting of Monday evening, addressed by such speakers as the venerable Wm. Cullen Bryant, William M. Evarts, and others, is significant. It is the l-writing upon the the President and his advisers will do well to heed.

"The truth is, it is no light matter for that supreme central authority which was created by the States, and endowed with certain limited and defined powers in order to promote union and domestic tranquility, to turn upon a State with the power thus conferred, and employ it to its humiliation The boundaries have been fixed by solemn covenant, and when Congress restored to Louisiana her political rights and status, Louisiana became a State in the Union, with the same prerogatives, the same privileges, as New York or any other State. To override these boundaries in the smallest particular is to break the bonds of union and sow the seed of distrust. President Grant has made a great mistake, and he will find it out."

An event has taken place in Louisiana which may have the effect of dampening the enthusiasm of Grant for the recognition by Congress of the so-called Kellogg Legislature. It seems that the irrepressible Pinchback has been at his old tricks, and has induced the present Kellogg Legislature to elect him United States Senator, instead of choosing brotherin-law Casey, in accordance with the wishes and expectations of the White House. This is the second time that Grant has overturned a government in Louisiana for the purpose of hav-ing his brother-in-law made a United States Senator, and both times the pestilent Pinchback, by his superior smartness, las carried away the coveted prize. The best thing Grant can do is to issue a proclamation declaring Pinchback a bandit, and then have Sheridan shoot him .- N. Y.

The ice men on the Hudson have truck for an increase of wages. As the companies have but a short sea-son in which to work and the strike is general, it is probable that the men may succeed. The New York com-panies will put the enhanced wages n their bills next summer, and the customers after all will pay the piper. The coal mine owners in Pennsylvania once pursued the same policy, and found it very profitable. THE STATE EXECUTIVE COM-

We are requested to call the attention of the members of the State Executive Committee of the Conservative party to the call for a meeting of the Committee in this city, on Wednesday, the 20th day of January next. The State Committee is composed of the Executive Committees of the several Congressional Districts; and the interests of the party imperatively demand the attendance of every member who can possibly be present. Matters of vital importance will come up for consideration.

We are requested further to say that the members of the Conservative press of the State are cordially and earnestly invited to be present, to assist the State Committee in its deliberations.

Let us have a full meeting and a frank, free conversation as to what is best to be done to give permanency to the triumph of August last.

The last article which Gerritt Smith wrote was for the Chicago Advance, and in it he took strong grounds against the Prohibitionists He said: "Let me here remark that, whether lager beer be or not intoxicating, I would not have the government array itself against German beer-drinking, was a social enjoyment of the Germans."

The Saratoga course has been selected for the inter-collegiate regatta next summer. The experience last year was not very favorable to the acific character of this sheet of water. WHANN'S RAW BONE SUPER-PHOSPHATE

is no new or untried manure. It has been before the public for upwards of ten years, during which time it has been steadily growing in reputation, until it is now universally recognized as one of the most uniformly reliable concentrated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the tertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. On

Cotton Corn and Tobacco

WHANN'S PHOSPHATE has produced the most gratif-ing results, in many instance far exceeding the most sanguine hopes of those who have used it.

We offer this renowned fertilizer for the coming season, assuring our friends that the same high standard which has always characterized it shall be rigidly maintained.

Gentlemen:—The ton of Whann's Raw Bone Super-Phosphate purchased of you last Spring made the best crop of cotton I ever ade, and I consider it decidedly the best fertilizer I ever used, I want it again next season.

Louisburg N. C , Nov. 9, 1874. Messrs, King, White & Shaw: Messrs, King, White & Shaw:

Gentlemen:—In r-ply to your inquiry as to my opinion of Whann's Raw Bone SuperPhosphate, I unhesitatingly say that by comparison with other fertilizers during the
last three years, I am satisfied that Whann's has turned out better crops for me than
any other, and I expect to continue to use it.

Yours truly,
John E. THOMAS

Messrs. Williamson, Upchurch & Thomas, Baleigh, N.O.:

Dear Sirs:—At the Orphan Asylum in Oxfor. a very decided success has attended every application of Whann's Raw Bone Super-Phosphate. The land was poor, and the s ason dry, but the cro; s surpass dour ex ectations. Such a fertilizer will work its own way, because those who have used it once will want it again.

J. H. MILL. Supt.

Messrs, King, White & Shaw:

Dear Sire:—This is to certify that we have used Whann's Raw Pone Super-Pl-osphate the past season, and are as well pleased with it as any we have ever used—that is on cotton, we did not use it on anything else.

Yours very re-pectfully,

J. J. THOMAS.

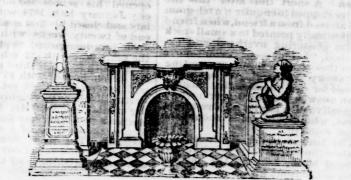

LOB DUNCAN

Louisburg, N. C., Nov. 10, 1874. I have been using Whann's Raw Bone Super-Phosphate and other kinds of manufacture of fertilizers for several years, and feel confident in saving that I prefer Whann's to any other. I cheerfully recommend it to be a first-class fertilizer, and expect to continue its use as long as its present standard is k pt up.

What Next-And Next! President Grant having virtually nceded in his Message that the late litary interference with the Louis-

na Legislature has no legal justifiration, apologizing for it on the round that soldiers are not lawyers, and that neither he nor Gen. Sheridan was then in immediate direction of the Federal troops, the question arises as to what steps should be taken to undo the wrong. If De Trobriand, who was ignorant of the law, blindly put himself under the direction of Kellogg, whose authority to interfere "debatable," and doubtless untenable, and a Legislature was upset and dispersed by that illegal interference, what is the proper method of redress If the Federal army had not exceeded their authority the organization un-der Speaker Wiltz would have been maintained and the House have re-mained in control of the conservatives. Wether that state of things ought to be restored or some other method of reparation adopted is a question which we submit to public consideration, not caring to discuss it or assume any position on it at this stage of the controversy. If it be admitted that the army had no right to interfere, it would seem to follow that things should be restored to the state in which they existed at the time of the of the interference. But it may be maintained, on the other hand, that the army has no more right to intervene to redress its wrongs than it originally had to intervene to commit them .- New York

Spanish accounts admit that a force of a across the trocha which was erected to confine the insurgents to the Central and Eastern departments and are not on the way to join their com-rades in the Cinco Vilas district. We are informed that they will be followed and annihilated, but as the Spaniards have been engaged killing the Cuban insurgents-on paper-for the last six years, we may be pardoned if we do not accord implicit faith to the assureances of the authorities. It is evident that the Cubans are resolved to begin their lrng contemplated campaign against the sugar estates of the Western Department. We may expect news of burn ing plantations and wholesale destruction of property unless the Spanlards succeed in driving the insurgents once more across the trocha r completely dispersing them. It is to be regretted that the war for independence should involve the destrucn of so much valuable property; but as the Spanish party did not hesite to destroy the property of the Cubans they have no right to complain of the retaliatory measures which may be adopted against them. CHARLOTTESVILLE, VA., June 12, 1874.

Dear Sir:—I have used the Xanthine for one year, and find it answers the purpose it is prepared for. I had used other preparations for the same purpose, viz: the restoration of the hair to the natural color. but was compel ed to abandon them, because they affected my system, gave me rheumatism and neuralgis. Xanthine, however, has not had this effect; on the contrary, has been beneficial in this respect. Hoping that you may be successful in its sale,

its sale, I am, your truly, NaNNIE E. WADDILL. From the Rev. Charles H. Read, D. D., Pastor Grace street Presbyterian Church, Richmond, Va. At a suggestion and presentation of Ariend, I have used one bottle of Professo Hertz's Hair Restorative, "Xaminine," I has accomplished in a very brief time, without any perceptible unpleasant or 15-jurious effect, all that is claimed for it as a restorer of the natural color of hair, turning gray. ing gray.
